## September Health Highlights

Healthy Aging Month  
National Cholesterol  
Education Awareness Month  
National Ovarian Cancer  
Awareness Month

Get Ready for  
**GIVING TUESDAY**  
on November 30

# GIVING TUESDAY

*GIVING TUESDAY IS A  
MOVEMENT THAT  
UNLEASHES THE POWER  
OF RADICAL GENEROSITY  
AROUND THE WORLD*

As you begin to think about your end of the year giving or as you think about the season of giving thanks, we ask that you remember Olde Towne Medical & Dental Center and the many patients in the community that do NOT have access to healthcare, are uninsured or are under insured. Those that work in the hospitality and entertainment industries as seasonal or part-time workers. Those that make Williamsburg a great place to live and visit.

## OTMDC Gala moves to **April 22, 2022**

In case you missed the announcement, the **OTMDC Gala** date has been moved to **April 22, 2022**, out of an abundance of caution and concern for our donors,

staff and the community at large.

After much deliberation, analysis, and consultation, we have decided that in the interest of health and safety, we will postpone the Gala until more is known about the effects of the variants of COVID-19. Being a healthcare facility and adhering to our Mission, the health and safety of you, your families and the wider community is of the utmost importance.

We are still hard at work with the planning of the event including some additional details to give you that much anticipated "Night On The Olde Towne" that we are all so looking forward to in April. Tickets are on sale now and will continue to be available on our website until April 1, 2022.

We are continuing to seek auction items for the event and will continue to offer sponsorships for the event to area businesses.

For more information, tickets and sponsorship details, please click here:

**TICKETS/SPONSORSHIPS  
CLICK HERE**

It is our mission to assure access to quality health and wellness care to the residents and workforce of the greater Williamsburg community. But we cannot continue to do it without your help.

Watch for the updates concerning Giving Tuesday and consider being part of radical generosity on November 30!

## Spotlight On...

**Maggie Beamon**  
Clinical Assistant,  
Medication Access

Meet Maggie! She works in the Medication Access Program (MAP) and has been with OTMDC a total of 11 years, first as a volunteer and then as a staff member.

In her role with the Medication Access Program, Maggie helps patients apply for Medicaid and request generic and brand name medications when they are uninsured or underinsured. For a while, she was a dental assistant at OTMDC as well.

Over the years Maggie has worked in both the medical and

## OTMDC Welcomes Rose Adams as the new Development & Grants Coordinator

Rose Adams joins the staff bringing a wealth of

experience and leadership in fundraising to Olde Towne. Rose has worked at the Juvenile Diabetes Research Foundation, the American Lung Association of Michigan and The American Diabetes Foundation of the San Francisco Bay area. She is a passionate believer that "fundraising is the joy of giving" and has made this the center of her nonprofit career. Olde Towne is excited to have Rose join our staff and bring her unique development talents to our organization.

## CONGRATULATIONS Meiber Gonzalez Avila

Meiber was promoted to our Health Educator. She will focus on educating patients with specific conditions and disease diagnoses about the resources available to them to manage those conditions. We are excited to have Meiber use her experience and skills to help us to better educate and care for our patients.

## It's Time For Flu Shots

Don't wait to get your flu vaccine. With all of the talk about COVID and the variants, it is even more important to protect yourselves from the flu

this season. Make an appointment today at Olde Towne, 259.3258.

As part of **Healthy Aging Month**, Olde Towne was able to participate in the **Health Aging Conference** on

the dental side of the organization making her a truly versatile and important part of the staff. She is happy to help when and where she is needed throughout the organization because, she says, "I truly believe in OTMDC's mission and am so thankful to be part of it. My favorite part of working at OTMDC is being able to provide medical and dental care to those who did not have access before."

Outside of work, Maggie is happily married and the mother of 4 children. In her free time, she enjoys painting, crafting and being outdoors with her family.

*Olde Towne Medical & Dental Center is seeing patients in person on a limited basis to allow for safety protocols and additional cleaning between patient appointments as directed by the CDC Guidelines for treating patients during the pandemic. We also offer telehealth visits. No walk-in appointments available at this time.*

Olde Towne was glad to be part of the Real People Educating Others Back To

September 14 with the Peninsula Agency on Aging and York County. The conference featured excellent speakers on wellness as you age, how to

avoid scams and fraud, keeping your resources up to date as you get older and more.

There were also over 20 vendors including Olde Towne to help folks know what resources and businesses are available to help you reflect, recharge and re-engage.

It was a great event and if you missed it, definitely check it out next year!

## There is still time to donate to the OTMDC Relay For Life Team.

Cancer seems to have touched so many in one way or another and that is especially true of the OTMDC staff. In April 2021 our Business Manager of over 24 years, Denise, lost her courageous battle with cancer. Denise was diagnosed with metastatic cancer in September 2020. She was loved by everyone she came in contact with, and her passing hit every member of our staff, as well as our patients, very hard. We created this team not only to celebrate her life, but to commemorate and support every member of our community that has been affected by cancer.

This is why we Relay.

Please consider donating to our team by clicking on the QR code below. The Relay is October 2, so there is still time to show your support and help fund the research to find a cure. We appreciate your support!

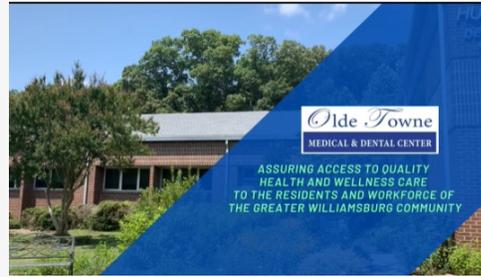

**CLICK HERE TO CHECK OUT WHAT**

School event at the end of August. We gave out info on our dental center and other goodies to kids getting ready for going Back To School.
