SPOTLIGHT ON...

Chronic Health Management

Olde Towne offers Chronic Health Management as one of the many services available to its patients. What that means is that patients who suffer with chronic diseases like diabetes, hypertension, asthma, COPD and more, not only get the care they need for those issues, but they get education, resources and tools and follow up with our health educator to learn to LIVE BETTER in spite of those health issues. Learning to live WITH these health problems rather than trying to live WITHOUT the proper medications and tools allows patients to continue to work, spend time with family and live a better, more healthy life.

From The Desk Of The Executive Director...

Olde Towne's goals as we enter 2022 are similar to those of 2021. Although we have learned a lot, there is still quite the unknown. It is safe to say that none of us were prescient enough to imagine we would be entering year three of dealing with this pandemic. Unfortunately, our colleagues and their families have been affected. However, everyone has pulled together, and we continue to attack every day with enthusiasm! Our focus entering the New Year will be as follows:

1. Continue to promote vaccination and boosting
2. Telemedicine
3. Teledentistry
4. Community partnerships similar to Eastern State Hospital & Middle Peninsula Northern-Neck CSB (Dental)
5. Focus on decreasing our uninsured patient population
6. Continue to support our dental department in the execution of the Adult Dental Medicaid benefit
7. Staff recruitment, retention, and morale
8. Continue to foster a positive relationship with WHF
9. Integrated Care Initiatives
10. Relocation Process

Our "Impact Report" and "Strategic Plan" are nearly complete, and I am excited to receive everyone's feedback.

I hope that you and your families were able to safely dedicate time last Monday, during the "Day of Service," to honor the legacy of Martin Luther King Jr.

Until next month...

Regards,

Aaron L. Thompson, MBA, CMR
Executive Director

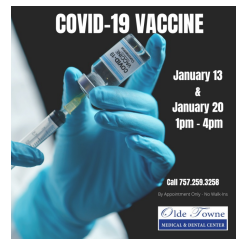

OTMDC GALA APRIL 22!

COVID-19 Update

Our staff is following strict safety protocols while working diligently to provide COVID testing to our patients based on symptoms and exposure. We have held 2 vaccine clinics for patients wanting a vaccine or booster as well. We are seeing increased positive results in our patient population, likely due to the Omicron variant. The entire staff is working earnestly to keep both the patients and themselves safe and healthy during this time. We have also implemented a Covid Self Checker on our website for patients.

Striving For A Healthy Community

New Year, New You

As we all embark on a new year, still reeling from increasing outbreaks of COVID-19, Olde Towne is here to help you have a healthier 2022.

We are continuing to put information in our social channels to help you live a healthier life. Check out our Facebook, Instagram and Twitter for recipes for healthier meals and snacks, health information highlights and resources from other non-profit partners and health care organizations to keep you informed of programs, health news and other useful details for your wellness journey.
